

# First Aid Critical Situations

نحن نهتم  
We Care

## Choking

For adults and children,  
perform abdominal thrusts  
(Heimlich maneuver)

For Infants,  
apply chest pressure  
and back slaps,  
no blind finger sweep

## Allergic Reaction

antihistamines or  
Epinephrine pen  
if AV Injection

## Stroke

Have the victim sit or  
lay down

Do not give Aspirin

## Stop Bleeding

Apply pressure,  
then bandage the wound

## Call 911

## Heart Attack

Have the victim sit  
and give them aspirin

## Seizure

Protect the victim from harm  
during a seizure by placing a  
towel under the head.  
If possible, roll the victim  
onto their side

## Burn

Cool the affected area  
with running water.  
Apply no-stick dressing  
or burn cream
